

Darwin Platform Group of Companies

Job Description

Job Title : Software Tester
Reporting Line : Manager IT Services

Roles and Responsibilities:

1. Reviewing software requirements and preparing test scenarios.
2. Executing tests on software usability.
3. Analyzing test results on database impacts, errors or bugs, and usability.
4. Preparing reports on all aspects related to the software testing carried out and reporting to the design team.
5. Interacting with clients to understand product requirements.
6. Participating in design reviews and providing input on requirements, product design, and potential problems.

Desired Candidate Profile:

1. A portfolio of professional UI/UX design work for both web and mobile platforms.
2. Working knowledge of the following technologies and software: Sketch, InVision, Visio, HTML, CSS (SCSS), iOS, Android, Design Systems, and Adobe Creative Suite.
3. A team player but can work independently too.
4. Excellent written and verbal communication skills.
5. Multi-tasking and time-management skills, with the ability to prioritize tasks.

Educational Background:

A bachelor's degree in computer science or related field and a minimum of 2 years' experience.

Additional Pointers:

1. Should be open to transfer to any other group company/department/location on the basis of management requirement.
2. Should be open to take additional responsibilities apart from the current scope of work.
